

## **StockIM® Partners with Harbinger Research**

### ***Provides Access to Proprietary Financial Research Reports on Publicly Traded Companies***

**New York, NY, June, 23, 2006** – IM Strategies' flagship subsidiary StockIM today announced the formation of a partnership with Harbinger Research. Harbinger Research provides current and historic research reports and detailed financial information on publicly traded companies in the United States.

This information will now be available to subscribers of StockIM, which is a one-stop communications hub, information source and stock trading portal for the investor focused on micro-small-cap companies. StockIM provides real-time IM services, streaming information feeds, exclusive news and commentary and one of the most cost effective stock-trading platforms on the Internet.

"This partnership further establishes StockIM as an information and communication hub, and multi-purpose investment tool," said Joseph Hain, Founder and CEO of IM Strategies and StockIM. "Reliable information on micro-small-cap companies is becoming increasingly difficult to attain. StockIM subscribers can expect [www.StockIM.com](http://www.StockIM.com) to provide them with this information through partners like Harbinger Research, while also allowing them to execute fast trades and communicate with other like-minded investors."

"Harbinger is very excited about this partnership with StockIM," said Brian Connell, President of Harbinger Research. "Investors today are looking for a trusted source of detailed and reliable information. Harbinger provides that, and StockIM is the perfect channel for us to provide our research."

In addition to providing streaming news and proprietary research, StockIM allows its subscribers to trade through its partnership with ChoiceTrade. The stock trading platform on StockIM is one of the fastest in the industry and among the most competitively priced. Subscribers have access to \$5 trades, which carries with it the benefits of no limits, as well as wireless capabilities.

Using a proprietary messaging and stock-trading platform, StockIM provides a communications hub and trading tool to the investor focused on micro-small-cap companies:

- Instant messaging platform for all companies on all US exchanges
  - Includes OTCBB and pink sheet companies
- \$5 stock trades
  - no size limits
  - wireless trading capability
  - *one of the fastest platform on the Internet*
- Real-time streaming news feeds
  - stock quotes
  - information news alerts
  - chartings
- Exclusive news and industry commentary
  - focused on micro-small-cap companies
- Research reports
- Message boards
- Blogs
- Podcasts/Video webcasts

### **About IM Strategies®**

IM Strategies provides a complete communications hub to the investment community. The market flux caused by the Sarbanes Oxley Act has led to the creation of IM Strategies' flagship product, StockIM®, which provides coverage of micro-small-cap companies across all US exchanges. StockIM's real time, centralized platform for streaming information helps investors identify news, trends, rumors and unique investor commentary, and allows them to chat through an Instant Messenger functionality with people within their firm or with the diverse, eclectic group of investors congregated on the StockIM buddy network. Premium users have access to real time news, quote and chart feeds, and also have the ability to buy and sell stocks directly through a premier fast execution platform, which has wireless execution capabilities. StockIM is a unique, one-stop information source and communications tool for today's savvy investor. IM Strategies is located in New York, NY. For more information about IM Strategies and StockIM, visit [www.stockim.com](http://www.stockim.com) or call 646.283.1707. StockIM® is a registered trademark of IM Strategies.
